### 2012 Sales by Market

The below pie chart separates our 2012 global sales by market segment. As you can see, almost 40% of our business is in the industrial coatings market! Our three biggest markets (Industrial Coatings, Pipeline Coatings, and Construction Systems) represented just over 70% of our total sales for the year. We wanted to share this chart so everyone can see where Zeeospheres are being used most. If you have any questions or would like to get any information about using Zeeospheres in any of these different markets, please let me know.
